

Invested \$859,500 in Local Solar Power!

First Half of Series 6 a Sunny Success

On February 25th, we closed the first half our sixth series of local solar investments, with 94 members investing an incredible \$859,500 over the course of the seven-week offering.

We want to thank each and every one of you for your ongoing support and for helping us spread the word. These investments will make it possible to offset over 110 metric tonnes of GHGs from the Ontario grid per year!

City of Ottawa's Smart City Strategy

Voice Your Opinion on the City's Tech Evolution

There is a great deal of conversation emerging surrounding "smart cities", particularly in Ottawa of late. But you may be asking - what is a smart city? **This article** provides a nice overview of the broad term.

The City of Ottawa is in the running for the federal government's "Smart Cities Challenge", and is seeking input from its residents to craft the best possible bid

for the title. You can now put forward your best, most innovative ideas about how to utilize technology to make Ottawa a more enjoyable, livable and sustainable city.
